# DCX-250 XPERT

MAXIMUM VERSATILITY  
FOR PERFECT CUTS

▶ SUPERPRO ◀

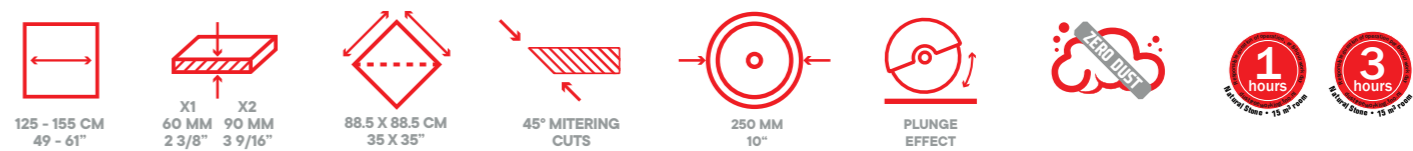

The new DCX-250 XPERT is RUBI's best performing professional electric cutter, designed to guarantee maximum stability and perfect cuts.

- 1** The triple-beam aluminium chassis and reinforced folding legs with easy locking offer stability while working as well as quick and easy installation. The robust structure of the machine plays an important role in achieving the best finish in ceramic cutting.
- 2** Its C3 Python system ensures more efficient cooling and cleaning of the blade, extending the performance and life of the blade and improving cutting accuracy while reducing spatter.
- 3** It is ideal for the intensive cutting of porcelain, stoneware and ceramic tiles; as well as for occasional use on natural stone such as marble and granite.

\*\*REAL CUT (without plunge effect)
