

Minimal profile for joining and finishing external corners with an extremely reduced section. An ideal solution where a trim is necessary but a minimalist look is required. Conceived for mitred tiles cut at 45° or for vitreous mosaic H 4,5 mm. The profile shape lends itself to 'countersunk' design of the edge, therefore protecting the fragile edges. A simple design for maximum results.

filojolly RJF

FILOJOLLY RJF-A* Extruded Anodised Aluminium

A silver (AS) coated aluminium profile which offers adequate protection and tolerance to wear over time.

The surface of this anodised aluminium profile has been chrome-effect treated in order to give that sparkling effect in combination with bathroom ware.
